REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Reference Hassett (US Patent No. 4,937,761) is made of record as teaching the art of graphic imaging process, specifically dealing with fonts. Here, fonts and graphic images represented by a list of parameters are converted to discrete points, transformed to a new coordinate system wherein the font characters are scaled, rotated, and quantized according to the resolution. However, this system is geared towards a laser printer and does not teach or suggest using the quantization primarily for positioning the font and graphic data for a more precise location, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
